EXPERIENCE

Front-End Developer at Komuna.dev   03.2023 - present
As a front-end developer, I have honed my skills in HTML, CSS, JavaScript, ReactJS, and NextJS, specializing in the development of a dynamic React E-commerce application. My expertise extends to crafting compelling interfaces within the app that not only captivate users but also enhance their overall shopping experience. Additionally, I've contributed significantly to enhancing our client's admin panel using Vue.js, ensuring seamless functionality and an optimal user experience.

PROFILE

In my professional capacity, I excel as a dedicated front-end developer with a robust skill set encompassing HTML, SCSS, JavaScript, jQuery, React, and Next.js. Currently, I am actively engaged in developing a dynamic React E-commerce application, where I apply my expertise to create seamless and visually appealing online shopping experiences.

Additionally, I play a pivotal role in enhancing our client's admin panel with Vue.js, ensuring seamless functionality and usability. My track record also boasts successful project completions utilizing Next.js, underscoring my commitment to delivering top-tier web solutions that meet both client and industry standards.
